BORGO SAN LUIGI

## IN THE HEART OF TUSCANY

This is how we welcome our guests.  
A path surrounded by two lines of tall cypresses  
to feel immediately in Tuscany

# History

Borgo San Luigi comes from "Podere San Luigi" a noble farm built in the early 18° century faithfully restored to have the same feelings of that time.

Borgo San Luigi is a tuscan, Hamlet surrounded from a big park of seven hectars, situated between Siena and Florence just a few kms from the wall of Monteriggioni.

An aerial photograph of a large, historic estate in Tuscany. The estate features several buildings with terracotta roofs, a large green lawn, and a swimming pool. The property is surrounded by dense trees and a winding road. The word "Relax" is overlaid in large white text on the right side of the image.

You can walk through the woods surrounding the estate or drink cocktails by the pool, even in winter accompanied by a lit fireplace.
